CHAPTER 1

Welcome

Approximate Time: 10 minutes

Welcome to the Flare Image Tooltips Tutorial.

- **Tutorial Goal** Learning how to add custom tooltips, displaying a popup when users hover over an image.
- **Key Concepts** Entering tooltip text for images, adding styles via the Internal Text Editor, and adjusting styles to change the look of the popup.

Zilker Park

Covering 351 acres, Zilker Park is a popular recreational area offering a variety of activities, including the Zilker Botanical Garden and the Austin Nature and Science Center.

CHAPTER 2

Creating a Project From a Template

To start, let's create a new project based on Flare's Austin template.

I How to Create a New Project From a Template

1. Select **File > New Project**. The Start New Project Wizard opens.
2. In the **Project name** field, give your project any name you want.
3. (Optional) In the **Project folder** field, you can enter a location where you want to save your project. By default, projects are saved in your Documents > My Projects folder.
4. Click **Next**.
5. Under **Factory Templates**, expand the **Tutorials** folder. Select the **Austin** template.

6. Click **Next**.
7. For branding, keep the default settings. (This is where you could customize your project's look with branding, such as colors and logo.) Click **Next**.
8. Click **Finish**. The project is created and loaded into Flare.

CHAPTER 3

Adding Style Properties

Let's copy and paste a generic style class and its properties in the stylesheet. This style class will automatically be used to control the look of the tooltip.

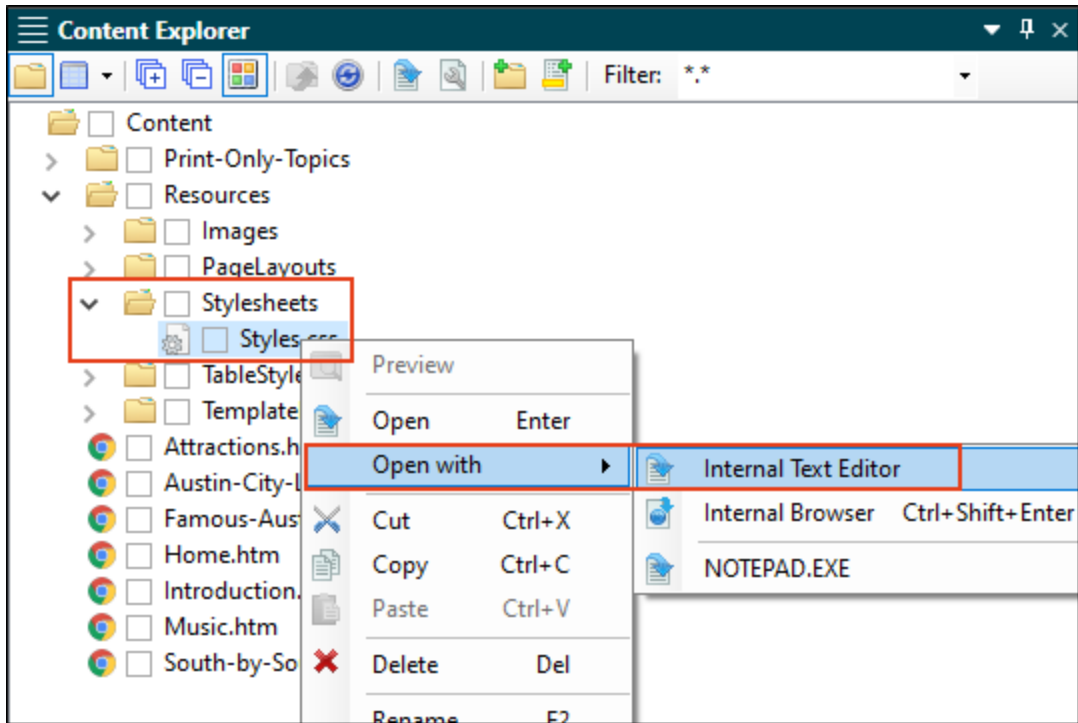

I How to Add Style Properties

1. Copy the following.

```
.tooltip
{
  background-color: #ffffff;
  border-radius: 5px;
  border-width: 1px;
  box-shadow: 0 0 5px #aaa;
  -webkit-box-shadow: 0 0 5px #aaa;
  font-weight: normal;
  height: auto;
  margin-left: 20px;
  max-width: 300px;
  padding: 8px;
  position: absolute;
  z-index: 99999;
}
```

2. From the Content Explorer, expand **Resources > Stylesheets**.

3. Right-click **Styles.css**, and from the context menu select **Open with > Internal Text Editor**.

4. Scroll to the bottom of the editor and paste the generic style and its properties.

```
762
763 span.Emphasis
764 {
765     font-weight: bold;
766 }
767
768 .tooltip
769 {
770     font-weight: normal;
771     max-width: 170px;
772     height: auto;
773     -webkit-box-shadow: 0 0 5px #aaa;
774     box-shadow: 0 0 5px #aaa;
775     border-width: 2px;
776     background-color: #bed420;
777     padding: 8px;
778     z-index: 99999;
779     border-radius: 5px;
780     margin-left: 20px;
781     position: absolute;
782     z-index: 9999;
783     max-width: 150px;
784 }
```

5. Click  to save your work.

CHAPTER 4

Adding Tooltip Text

Next, you need to provide the tooltip text that will display in a popup when users hover over each image.

I How to Add Tooltip Text to Images

1. From the Content Explorer, open the **Attractions.htm** topic.
2. Right-click the image of the Texas State Capitol, and from the context menu select **Image Properties**.
3. On the **General** tab, enter the following text into the **Screen Tip** field:
`Hey look! It's the Texas State Capitol.`
4. Click **OK**.
5. Do the same with the other two images, adding the following text:
 - **Zilker Park** Add the text `Check out the sunset!`
 - **Lady Bird Lake** Add the text `Lady Bird Lake is a great place to jog. Just don't jog on the water.`
6. Click  to save your work.
7. Build and view the **All-About-Austin-HTML5** target.

8. In the output, open the **Attractions** topic, and hover over each of the images to see its popup text.

State Capitol

The Texas State Capitol was finished in 1888. It boasts 22 acres w

Hey look! It's the Texas State Capitol.

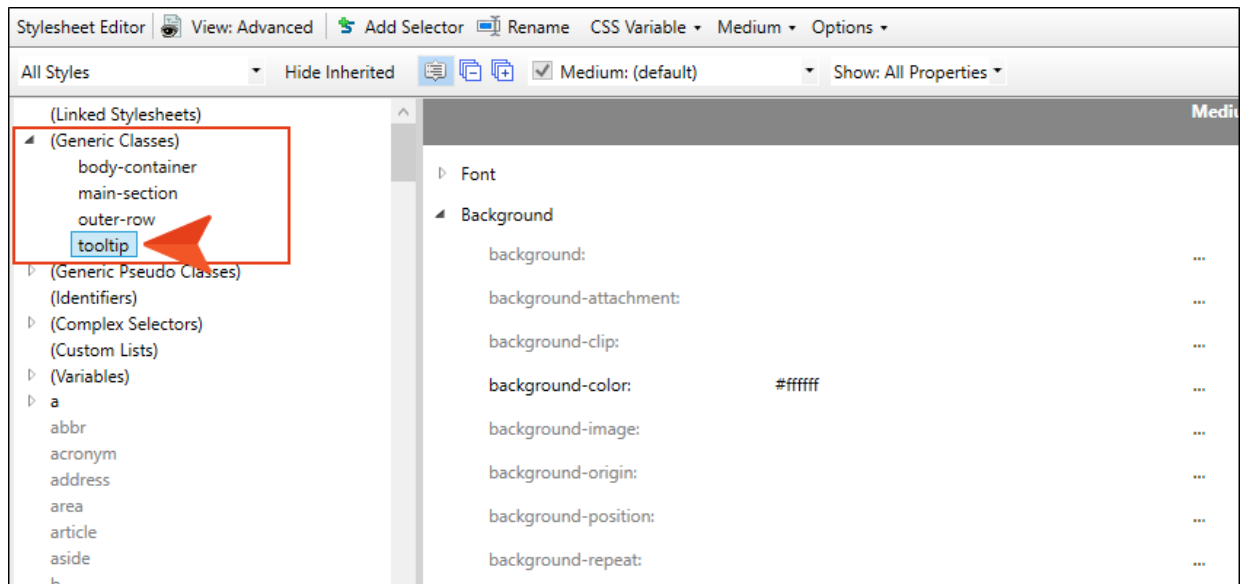

CHAPTER 5

Editing the Popup

Now that the tooltip works, you might want to make changes to the popup. Let's change the background color and maximum width of the popup.

I How to Edit the Popup

1. From the Content Explorer, expand **Resources > Stylesheets**.
2. Double-click **Styles.css**.
3. On the left side of the Stylesheet Editor, make sure the filter is showing all styles. Then find and expand **(Generic Classes)**, and select the **tooltip** class.

- Under the **Background** group (if you are using group view), change the **background-color** property value to #cae4e9.

- Under the **Unclassified** group, change the **max-width** to 150px.

- Click  to save your work.

7. Build and view the **All-About-Austin-HTML5** target.
8. In the output, open the **Attractions** topic, and hover over each of the images to see its tooltip. Notice the new background color, as well as the width of the popup.
